proceedings that followed hard on the...  
Cuban debacle, the first has begun to...  
This is the inevitable game played in...  
every capital after a fiasco of appointing...  
game and speculating on the degree to which...  
this or that official has gained or lost caste...  
Thus Time magazine, with what seems like...  
unnecessary relish, reports a dip in prestige...  
for the professorial team of Dean Rusk...  
Bundy, and Rostow. Throwing in Dean...  
Rusk for good measure, Walter Lippman...  
agrees that whether this is true or not...  
should be on the curious ground that these...  
new hands failed to protect the President...  
against the bad advice of his old hands...  
Others add General Lemnitzer and Admiral...  
Bucke, from the Pentagon, and a New York...  
Daily News columnist reports hearing every...  
where the suspicion voiced that the Cuban...  
debacle was brought about by "Commie sym-...  
pathisers in high government posts," a...  
symptom of the same paranoia that held...  
General Marshall personally responsible for...  
Chinese Communism.

In all the assessments that have come on...  
ever, there is overwhelming agreement that...  
President Kennedy himself is in the clear and...  
that the Central Intelligence Agency is in the...  
doghouse - especially Richard Bissell Jr., first...  
deputy in charge of Cuban revolutions. In...  
spite of the President's assumption of...  
full responsibility, the first post-Cuban Gal-...  
lop Poll shows 87 per cent of the people for...  
him, a peak rarely reached even by Roosevelt.

Far more important than these ballistics...  
is the second preoccupation, not only of the...  
capital but of the country: what do we do...  
next about Cuba? Nothing in the Kennedy...  
record, or in the chronicles of World War II...  
invites the belief that he will sit back and do...  
nothing - even in any event give that...  
impression. As moderate and sensible a commander...  
for as Rostow (Drummond) columnist...  
failure is terrible only if he takes credit...  
that he is preparing to succeed, all more.

What is the situation? The President's...  
future course, the nature of his political...  
moves. To see opposition support for...  
action in an emergency is one thing, but...  
part for what, usually missing the...  
Latin American could be high to whom...  
private talk with Barry Goldwater, labeling...  
Nixon, (who is still in control of the...  
Maoist) and all which has this...  
addition to the... and Rockefeller...  
noteworthy that not one of these...  
confidants has been... or...  
extra... as a...  
justice...  
to...  
left to the...  
new...  
to...  
to...

Secretary of State Rusk, who held out...  
against the use of unmarked American planes...  
to cover the rebel landings, has indicated...  
clearly that there will be no further attempt...  
to organize a rebel invasion, intensifying our...  
present economic embargo which damages us...  
as much as ally with the rest of Latin...  
America about...  
who would simply transfer all their business...  
to the Soviet...  
Administration...  
the answer would seem to be joint action...  
economic or military - with as many Ameri-  
can states as the US could...  
to...

Here the question is with what...  
Washington ally itself? If it unites its fortunes...  
with dictatorships of the right, it will succeed...  
only in...  
throughout the hemisphere. Courting the...  
non-Communist...  
the tacit approval of Goldwater, Hoover and...  
Company. It is too early to be suspicious, but...  
one should not overlook the possibility that...  
in its dealings with Mr. Castro, the Adminis-  
tration may after all be planning no more...  
than to fall back on the...  
and the... effects of...
